Why choose UniCarpo line

- 1 Ambidextrous, universal, and **one-size-fits-all**
- 2 **Only 3 stock references** needed to obtain a complete range of braces
- 3 **Simple** to put on and adjust

When to use these braces

UniCarpo 19 and UniCarpo 21 are recommended when it is necessary to **stabilize the wrist** and **limit movement** to reduce pain and support functional recovery.

It is particularly useful in cases of **wrist trauma** or **sprains, inflammatory disorders** such as tendinitis and tenosynovitis, and **overuse syndromes**—including the carpal tunnel syndrome.

When combined with the **thumb support** UniCarpo 23 offers a more complete control in clinical specific conditions.

unicarpo 19_21_23

Controlled stability,
total adaptability

UNICARPO 19 SHORT

MAXIMUM ADAPTABILITY:

universal design
and one single size

22 CM

GENTLE ON THE SKIN:

double-layer MTP
structure with
soft velour fabric

GUARANTEED STABILITY

by palmar splint and
moldable dorsal
reinforcement splints

**UNICARPO 21
LONG**

**FULL DORSAL
OPENING**

Effective
immobilization for
everyday comfort

UniCarpo 23: a more functional although targeted control

THUMB SUPPORT

attachable with Velcro®
